
P.B.M. S.r.l. is committed for quality, compliance, safety, environmental conservation and protection, and the continuous improvement of its operations in accordance with the requirements set forth in mandatory regulations and in the:

ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

Its official commitment to the implementation and continuous improvement of the mentioned systems will be implemented:

- by implementing and enforcing required procedures, controls and documented information
- by complying with the requirements of all laws, regulations, permits, quality standards and environmental and occupational health and safety standards applicable to our products and operations
- analysing and evaluating all risks and implementing opportunities concerning quality, environment and occupational health and safety
- committing to consulting and involving employees in organisational/management decisions
- by setting clear and measurable objectives to assess product and service quality, environmental impact, pollution prevention and occupational health and safety
- regularly reviewing and continuously improving objectives for product and service quality, environmental, and occupational health and safety management
- providing adequate resources to meet all requirements
- applying best practices to manage quality, compliance, safety, environmental conservation and protection, and continuous improvement.

P.B.M. S.r.l., regularly reviews this quality policy to ensure proper implementation of the management system, with the ultimate goal of achieving excellence in quality, environmental responsibility and occupational health and safety. This policy applies to all employees throughout the organisational structure, and all interested parties
